ATALANTA

## Support Equality and Advancing Inclusion in Marine and Maritime sector

### At a glance

**Full Title:** Support Equality and Advancing Inclusion in Marine and Maritime sector

**Project No.:** 2025-1-CY01-KA220-ADU-000352281

**Funded under:** Erasmus+ Programme

**Duration:** 36 months

1 September 2025 – 31 August 2028

**EU funding:** €400,000.00

**Granting Authority:** The Foundation for the Management of European Lifelong Learning Programmes

**Coordinated by:** CMMI- Cyprus Marine and Maritime Institute

### Description

ATALANTA is an Erasmus+ KA220-ADU cooperation partnership that advances gender equality and inclusion across the blue economy. The project will co-create an inclusive curriculum, immersive VR/AR experiential training, and the “Woman Rise Package” of mentorship and networking to support women at all stages of maritime education and careers. ATALANTA is designed to build confidence, technical competence, leadership skills, and gender-sensitive practices across maritime training and workplaces.

Coordinated by the Cyprus Marine and Maritime Institute (CMMI), ATALANTA brings together a complementary consortium of four partners from three EU countries: CMMI (Cyprus), INNOPIXEL Aps (Denmark), SEABILITY INNOVATIONS P.C. (Greece), VENLYS & SIA EE (Greece), and one affiliated entity: WISTA (Cyprus). This cross-border team combines expertise in maritime operations, training, human factors, digital innovation, and gender equality to design solutions that are both technologically advanced and socially responsive.

Key innovations include:

- An inclusive, modular curriculum and tools tailored to the needs of women in marine and maritime professions
- VR/AR experiential training through three real-world scenarios that simulate authentic operational environments
- The “Woman Rise Package” for structured mentorship, peer networking, and leadership development
- Capacity-building activities for trainers and organisations to mainstream gender-sensitive and inclusive practices
- A comprehensive framework for evaluation, dissemination, and sustainability to support scale-up across Europe

Practical pilots will pre-test and validate the curriculum, immersive tools, and mentorship model in real and simulated maritime settings, culminating in a collaborative learning workshop that mirrors real-world operations.

Funded by  
the European Union

ATALANTA project is funded by the European Union’s Erasmus+ Programme, under Grant Agreement 2025-1-CY01-KA220-ADU-000352281. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or The Foundation for the Management of European Lifelong Learning Programmes.
